3M™ VFlex™ Particulate Respirators

Get
comfortable
with **value**

Introducing the 3M™ VFlex™ Particulate Respirators 9152 and 9152S, EN149:2001+A1:2009 FFP2 NR D with a unique, flexible fit.

3M VFlex™ respirators offer effective protection at incredible value - with no compromise on quality.

The unique design unfolds into roomy, comfortable space. VFlex™ expands and flexes with your face as you breathe, work and talk. By holding itself away from your mouth, VFlex™ helps you feel unhindered throughout your shift.

Positioning tabs, adjustable nose clip and a choice of two different sizes help achieve a custom fit across a broad range of faces.

VFlex™ respirators offer reliable and affordable protection and are backed by the high level of support and access to technical personnel that a brand like 3M can offer.

Get comfortable with value

3M™ VFlex™ Particulate Respirators: a unique, flexible fit.

V-shaped pleats

- flex and expand with mouth movement for easier talking and breathing

Tabs

- uniquely designed for positioning the respirator on the face

Embossed front panel

- helps the respirator retain its shape, away from your mouth
- helps maintain spacious feel

3M proprietary filter media

- 3M high performance filter material provides effective filtration combined with low breathing resistance

Adjustable noseclip

- helps provide a custom fit and secure seal
- imbedded, metal detectable

Additional design features

- Elastic headbands contain no natural rubber latex components
- spacious feel inside, with minimal impact on field of vision
- compatible with a variety of eyewear and hearing protection from 3M
- available in 2 sizes to fit a broad range of faces

Comfortable inner layer

Flat-fold convenience

- convenient storage prior to use

Potential Applications/Industries:

- Sweeping
- Sanding
- Grinding
- Sawing
- Bagging
- Dry chemical handling
- Emergency preparedness
- Laboratories
- Food preparation
- Mineral processing
- Agriculture
